All,

I have had a change of plans as of yesterday morning. I have 2 permitted annual inspections that are scheduled for tomorrow. They are located in Douglas, Coffee County which is about 1 ½ hours away. The inspections begin at 10:30 and will not likely be completed until about 15:30. I will not be back for the Mayor's Point Walk-Thru. My apologies for the change. I hope that John Maddox will be able to attend. If we finish earlier than expected, I will come to Mayor's Point in hopes of meeting everyone.

My Apologies,

Michael Derrick

Good Afternoon Everyone,

A sight walk through on Thursday would work well for us. I talked to the Golden Ray team about going on the PAC COMM property and they are currently trying to allow us on around 1400. If they do allow us on, it will likely be a short trip, maybe 10 minutes. Worst case we can evaluate the property from the parking area and from the dock at Ocean Petroleum if we get any push back that day. I have my CO greasing the skids with the Incident Commander tomorrow to see about more flexibility on a PAC COMM walk through.

In the meantime, lets plan to meeting at the Georgia Ports Authority, Mayor's Point property at 1400 on Thursday, then we will continue south to PAC COMM (full access pending), then last we will go to Ocean Petroleum. I have already spoke with Ashley, the owner of Ocean Petroleum and she will be

expecting us after 1400.

I look forward to meeting you all soon, and please let me know if you have additional questions in the meantime.

Please don't forget to bring a life jacket and face covering.

Respectfully,

LT Matthew Spado

Matthew,

Bryan Vasser and I will be available to conduct a site walk on Thursday, October 29th. We will arrive in Brunswick midafternoon. We will be able to walk all 3 properties that day?
